### FIRST BAPTIST CHURCH INTERESTING NOTES

Fine congregation, both morning and evening at the Baptist church last Sunday.

T. R. Stroup preached for the saints at Bucoda Sunday, while G. A. Crocker filled the pulpit at Hayti. Bro. Crocker is the much beloved pastor at the Holcomb church.

The ladies of the Baptist church seem to be growing in enthusiasm. They are working with might and power for the new building.

The ladies of the Baptist church will give a dinner on the Fourth of July, all kinds of eats will be served from old fashioned "chicken and dumplings" to barbecued pig. Speakers from a distance have been secured and a splendid program will be rendered. Good music, good speaking and good eating will be the order of the day.

Parents, let us have your children for our Sunday school. We need the children, your children need the Sunday school. If you do not want to send them to the Baptist Sunday school, send them to the Methodist Sunday school, where I am sure they will be well cared for and good instruction will be given. By all means send them somewhere, that they may learn of Jesus and his wonderful love.

We greet the returned soldiers with outstretched arms. They wrought well. Many gave their lives to establish Democracy; we love and praise them. Now, dear Christian, may I ask that you do as well as they; let you and I work to free the people of Hayti from the shackles of sin; let's make our town safe for the boys and girls by teaching, and living for the uplift of our people. "Let us live so the world will be better for us having lived in it."

REPORTER.

### Fish Attacks Ship.

An attack made by a swordfish on a ship which arrived at a port in India resulted in considerable damage to the vessel. The ship was entirely stripped of her metal sheathing in the encounter. The creature made a hole on the port side, penetrating through a mass of copper and for fourteen inches into solid oak plank and timber.

Mrs. Ophie Shepard and children, Ernestine and Paul Glynn, left for Memphis Wednesday, where Mrs. Shepard is taking treatment.

### Would Elevate Business.

The barbers of Osaka, Japan, who number 4,500, have approached local authorities with a proposal to establish a training school for the knights of the razor. It has been complained that "many barbers in Osaka have not that elementary knowledge of surgery absolutely necessary for their vocation," and the better qualified wish to compel all intending to enter this profession to pass final examinations at the special school.

Eupratice Ucel, whose home is in Bardwell, Ky., but who is now working on a dredge boat at Terry, was visiting friends in this city Tuesday.

Hayti, Missouri

Bennie Wright, who was in the 355th Co. of the 89th Division, just recently received his discharge and returned home, left Friday for Kennett, where a big dance was given the following night in his honor.

### KAFIR AN EMERGENCY CROP

When it is too late for corn, or when a poor stand results, it pays to plant kafir, which is an excellent emergency crop.

Kafir compares favorably with corn in yield and feeding value, producing from eight to twelve tons of silage per acre.

The belief that kafir and other grain sorghums are hard on land is based on the cloddy soil condition often caused by exhaustion of surface moisture by the shallow root system.

From four to eight pounds per acre should be seeded, and plants should be from three to nine inches apart, according to soil conditions. Special plates for the seeds should be secured for the corn planter.

When the growth of kafir is checked by the dry, hot weather, stock poisoning (due to the formation of prussic acid) may and does often occur, if pastured, but this poison may be expected to disappear if favorable weather follows, or if the kafir is cured for hay or used for silage.

Kafir may be planted from two to four weeks after corn planting time.

Little Jaunita Provow is reported this week as having the whooping cough. The whooping cough is quite prevalent in our city at this time, and all means possible should be taken to prevent its spread, as it is especially a dangerous disease with infants. It is bad enough at best when children are old enough to take care of themselves, but with infants is among the most fatal ailments to which they are subject.

### NOT ARDENT WORDS OF LOVE

At First, Though, It Would Seem That Salesman Was Addressing His Adored One.

"No one ever loved you half as well as I do," he said to her. She made no answer.

"How did you come to love me?" he pleaded. Still the girl refused to speak, although she smiled encouragingly at this.

"Your name is written on my heart. The world is dark without you. I've built a bungalow for you and me. Let us fly to an isle in the tropic sea. The kiss you gave me set my heart on fire."

The girl was not offended. She scowled a little, but not at him. She seemed in deep thought. Suddenly she looked into his pleading orbs.

"No," she said. "Nothing like that." "My Oola-loola girl. When—"

The girl shook her head and left the counter.

The young salesman had been naming the latest popular songs. Doesn't sound like a national anthem epidemic, does it?

### WHAT A DOLLAR IS WORTH NOW.

War Savings Worker Shows It Will Buy More in Five Years Than It Will Today.

One of the telling points being made by W. R. Jackson, of Mexico, Mo., Director for Audrain County, in his address before War Savings societies, is the statement of the value of a dollar today as compared with what it will be worth five years hence, when the present series of War Savings Stamps mature.

"The dollar saved today will be worth more than \$1.50 then," he said. "Of course, I refer to the buying power of the dollar. The conditions that exist now will have disappeared by that time, and the normal will have returned. All authorities on economics agree that present prices cannot be maintained and that the dollars of 1924 will go much farther, as a purchasing medium, than the dollars spent today."

"History repeats itself. The value of all staples immediately following a war have always been extremely high, and these values have steadily declined as business conditions readjust themselves."

The argument is sound and the saver of War Savings Stamps may reasonably expect a much greater return than the interest of four per cent, compounded quarterly, which is assured by the government.

"That's me," remarked the loyal Tiger fan, giving the O. O. to the new calendar; "one nine; one nine."

Eight thousand dollars in bonuses to its employees by a Detroit real estate exchange would seem to make it a fair one.

Doesn't it seem a shame, C. P., W. W., W. P., P. S., et al., to throw all of that perfectly good T. N. T. into the D. B. C.?

Supposing he did call him "Sir!" What's a fellow going to do when he's eating boiled cabbage or something; call him "your majesty" or "your royal highness" every time he wants him to pass the butter?—Indianapolis Star.

### "FAKE" ASPIRIN WAS TALCUM

Therefore Insist Upon Genuine "Bayer Tablets of Aspirin"

Millions of fraudulent Aspirin Tablets were sold by a Brooklyn manufacturer which later proved to be composed mainly of Talcum powder. "Bayer Tablets of Aspirin" the true, genuine, American made and American owned Tablets are marked with the safety "Bayer Cross."

Ask for and then insist upon "Bayer Tablets of Aspirin" and always buy them in the original Bayer package which contains proper directions and dosage.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

### WOODMEN, SPARE THE TREE

America's natural resources have been the salvation of Europe. A list of the products shipped across the Atlantic in recent years would be exhaustive. Near the head of the list would be "lumber." Millions of railroad ties have been sent to France. Today Greece is turning to the United States for wood.

This country could furnish Europe with supplies for many years. Yet the old proverb ought not to be forgotten: there is an end to all things. A long look backward would show Europe covered with forests; a long look ahead under present methods would show America devoid of forests. The action presents a problem, not a dilemma.

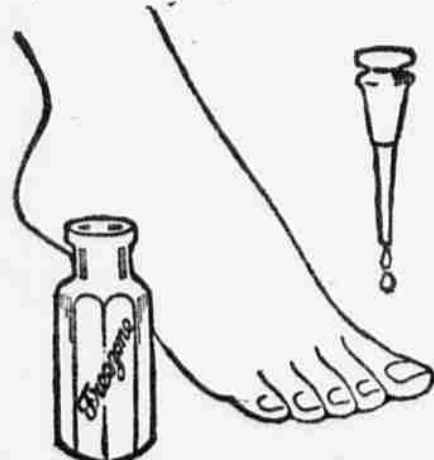

During the few years of this country's history 300,000,000 acres of forest land have been wiped out entirely. This amounts to more than half of our forest land today. Moreover, the present rate of cutting far exceeds the annual growth of trees. This means that another century will find America appealing for lumber, like Greece from whom?

The importance of conserving our natural resources cannot be over-emphasized. Every process which will eliminate waste and rehabilitate our forests is invaluable. Since four-fifths of these lands are owned by private concerns, individual owners as well as the government, should be impressed with the magnitude of the task. Such a scheme as planting a new tree for each tree cut would do much to solve this problem.

**Making Conversation.**  
Always remember that many a man who inquires after your health really doesn't care a rap whether it's good, bad or indifferent.—Jameson Gem.

### LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

We Sell FREEZONE

Lefler's Drug Store, Hayti, Mo.

## Radiator And Welding Shop

Bring or ship your Radiator and broken parts to me for repairs.

I fix Radiators, no matter in what condition, and make them good as new at a reasonable cost.

Broken auto and machinery parts welded to stay welded. Let me burn the carbon from your auto and you will save gasoline and get more power. Service and satisfaction guaranteed. Once a patron, always a patron.
